<th>Core Content Objectives for Lesson</th>
</tr>
</thead>
<tbody>
<tr>
<td>I understand each section of a nutrition label.</td>
</tr>
<tr>
<td>I can identify the food groups in the food pyramid.</td>
</tr>
</tbody>
</table>

Describe assignments & list any textbook / workbook pages that will accompany it:

For this lesson, students will track their daily breakfast, lunch, dinner, and snack. Students will record the calories in each food/drink item they have consumed, and will compare their calorie consumption to the recommended daily calorie consumption (2,000 calories). Students will answer the following questions:

- Did your daily calorie intake reach/exceed 2,000 calories?
- Why or why not?

After students recorded what they have eaten, they will plan 3 healthy meals (breakfast, lunch, and dinner) and a snack. This meal must be 2,000, or at least be 200 calories above/below 2,000 calories. Each food group should be consumed at least one time.
What is your primary objective for this lesson:

<table>
<thead>
<tr>
<th>The primary objective for this lesson is for students to understand that the recommended daily calorie intake is beneficial in maintaining a healthy lifestyle.</th>
</tr>
</thead>

</tbody>
</table>

Describe assignments & list any textbook / workbook pages that will accompany it:

For this lesson, students will check their RHR by participating in 3 activities for 10 minutes each or choosing 1 activity to participate in for 30 minutes.

What is your primary objective for this lesson:

The primary objective for this lesson is for students to compare the similarities and differences in their RHR and MHR.
Day 2: Cardiorespiratory Endurance

Directions: Check your Resting Heart Rate (RHR). (Weather permitting), you must participate in 3 activities for 10 minutes each, or choose 1 activity to participate in for 30 minutes.

RHR: _________ beats per minute

- Jumping Jacks
- Running
- Dancing
- Hiking
- Basketball
- Climbing stairs
- Swimming
- Soccer

After you participate in the activities above, check your Maximum Heart Rate (MHR). Compare your MHR to your RHR and answer the following questions:

MHR: _________ beats per minute

1. Is your MHR higher than your RHR?

2. Explain how the activity you participated in is considered a cardiorespiratory endurance activity.

3. Why is cardiorespiratory endurance an important part of health-related fitness?

<tr>
<td>Students can use weight management and eating disorder terms in a sentence.</td>
</tr>
</tbody>
</table>

Describe assignments & list any textbook / workbook pages that will accompany it:

Students will fill in the blanks with key terms in their workbook pages. The workbook page is provided, and terms may be used more than once.

What is your primary objective for this lesson:

The primary objective for this lesson is for students to put their knowledge into sentences. Students have learned these terms in class, and will be able to use them to form sentences about weight management and eating disorders.
Section: Carbohydrates, Fats, and Proteins

PART I
List the functions of each class of dietary nutrient.

1. Carbohydrates ________________________________

2. Fats ______________________________________

3. Proteins ____________________________________

PART II
Place an “S” in front of each of the following simple carbohydrates. Place a “C” in front of the complex carbohydrates.

_____ 4. fructose
_____ 5. glycogen
_____ 6. glucose
_____ 7. lactose
_____ 8. starch
_____ 9. sucrose
_____ 10. fiber

PART III
Place a “C” in front of each of the following complete proteins. Place an “I” in front of the incomplete proteins.

_____ 11. peas
_____ 12. hamburger
_____ 13. chicken breast
_____ 14. rice
_____ 15. beans
_____ 16. tuna

</tbody>
</table>

Describe assignments & list any textbook / workbook pages that will accompany it:

For this lesson, students will answer the questions on the worksheet about physical fitness and health.

What is your primary objective for this lesson:

The primary objective for this lesson is for students to understand the benefits of physical activity.
Skills Worksheet

Concept Review

Section: Physical Fitness and Your Health

PART I
Identify each benefit of exercise. Write "P" for physical and "M" for mental benefits.

_____ 1. Helps you improve your body composition

_____ 2. Lowers your chances of having conditions such as heart disease

_____ 3. Helps you cope with everyday anxiety

_____ 4. Helps improve joint flexibility and muscle strength and helps prevent back injuries

PART II
Identify the component of physical fitness that best fits each description.

5. _________________ refers to the amount of force that a muscle can apply at one time and repeatedly for an extended period of time.

6. _________________ refers to your body's ability to endure 20 minutes or more of continuous exercise.

7. _________________ refers to the ratio of lean body tissue to body fat tissue, which can change according to your eating and exercise habits.

8. _________________ refers to your body's ability to extend and flex its major joints through their full range of motion.

PART III
Match each tip for good sportsmanship with the description of how to implement it. Write the letter of the correct tip on the line.

a. Be a good fan.
b. Be a gracious winner.
c. Assume some responsibility.
d. Be a good loser.
e. Show respect for others' abilities.
f. Be mannerly.

9. Don't purposely make the members of the other team feel like losers.

10. Cheer—don’t jeer.

11. Don’t blame your teammates if your team loses.

12. Never use foul language.

13. Accept that you will sometimes win and sometimes lose.

14. Thank the opposing team for a good game when the game is over.

<tbody>
<tr>
<td>Students understand the effects tobacco has on the human body.</td>
</tr>
</tbody>
</table>

Describe assignments & list any textbook / workbook pages that will accompany it:

Students will answer the True/False worksheet provided below. If the answer is true, students will write "true." If the answer is false, students will write "false" and explain why.

What is your primary objective for this lesson:

The primary objective for this lesson is for students to understand the effects tobacco has on the human body.
Section: Tobacco Use

Decide whether each statement below is true or false. Use "T" for a true statement and "F" for a false statement. If a statement is false, explain why it is false on the line below.

1. Herbal cigarettes are not as dangerous as tobacco cigarettes. ___

2. The addictive drug found in tobacco is nicotine. ___

3. Sixty milligrams of nicotine are enough to kill most people. ___

4. Pipe tobacco and cigars are not as dangerous as cigarettes because the smoke is not inhaled deeply. ___

5. Eight dips of snuff per day have as much nicotine as about 30 cigarettes. ___

6. Almost all smokers start as teenagers. ___

7. Quitting smoking is easy, and withdrawal is pleasant. ___

8. Nicotine has no effect on the brain. ___

9. Oral cancer can be severely disfiguring. ___

10. Tar itself does not contain any carcinogens. ___

11. Carbon monoxide helps oxygen get into the bloodstream. ___

Describe assignments & list any textbook / workbook pages that will accompany it:

Students will answer the worksheet provided below.

What is your primary objective for this lesson:

The primary objective for this lesson is for students to understand the effects illegal drugs have on the human body.
Section: A Drug-Free Life

Complete each of the following sentences by using the terms listed below:

- everyone
- relapse
- drug-treatment programs
- trust
- mental disorders
- intervention
- methadone
- accidental death
- job training
- crime

1. Drug abuse affects ____________________________

2. A serious concern during the recovery process is the fear of ____________________________

3. One risk of illegal drug use is ____________________________

4. One of the first things that a family loses when a teen starts using drugs is ____________________________

5. Addictions and ____________________________ should be treated at the same time.

6. The term ____________________________ means confronting a drug addict and demanding that he or she seek treatment for dependency.

7. Some heroin addicts choose ____________________________ maintenance to help them go through the withdrawal process.

8. Treatment for recovering addicts should include family counseling, ____________________________, and legal services.

9. There is an undeniable connection between ____________________________ and drugs.

10. The purpose of all ____________________________ is to help the person battle both the drug dependency and the reasons why he or she started abusing drugs in the first place.

How many players at a time?
Please draw out the boundaries to your game and include any equipment that is stationary (including goals, bases, etc.).

Please explain how your game relates to the components of fitness and why is it important to participate in this activity.
Things to remember:

- You want as many people active as possible!
  - Is it fun?
  - Is it safe?
- How does it relate to the components of fitness?
  o Which components does it include?
- The more detail you write the better.
